The forty new coaches purchased by the company are coming in

very opportunely. A contract has just been signed in New York for a complete outfit of rolling stock, ncluding pressed steel cars, to locomotives and passenger coaches, for the Republic & Grand Forks Railroad in Washington. The road will be forty-eight miles ong and of standard gauge. At Grand Forks it will connect with a Canadian Pacific railroad. The first trains will be run early in November. The road will be used mainly to carry gold and silver ore from the mines in the Republic district, on the eastern slope of the Cascades, to Canadian

smelters at Grand Forks. The Chicago, Burlington & Quincy has completed at its shops at Aurora, Ill., an inspection engine for the use of W. C. Brown, general manager of that system. The engine is a combination of a locomotive and a passenger car. The driving wheels are 54 inches in diameter and the truck wheels 28 inches. The cab for the in-spection party is 14 feet by 10 feet in width. The engine is equipped with electric headlight, incandescent lights in the observation end, in the cab and below the running board, for the convenience of oiling. Mr Brown expects to make his inspection tour Twenty-three passenger trains now pass on this engine.

Sir William Van Horne, chairman of the board of directors of the Canadian Pacific Railroad Company, who has been in Cuba for some time past supervising his railroad interests in this island, sailed from Santiago de Cuba for Boston in a fruiter vesterday. He said he was greatly pleased with the progress of railroad construction in Cuba. He had never seen better results, considering the conditions, and was well pleased with the Cuban and Spanish labor which was better than anticipated. Sir William expects to complete the road between Santiago and Santa Clara within a year, which will give connection with Havana and all other parts of the island. He is satisfied with the prospect of a safe government, and thinks the outlook is better than ever for his great enterprise.
